O 1. Full Stack Developer Portfolio (Live)

Tech Stack: React.js (Frontend), Node.js & Express (Backend).

Developed a fully responsive personal portfolio website to showcase skills and projects.

Built a custom REST API to serve profile data dynamically.

Implemented real-time "API Status" monitoring between frontend and backend.

Deployed Frontend on Vercel and Backend on Render for 24/7 availability.

O 2. Responsive Landing Page (Practice Project)

Ensured 100% responsiveness across mobile, tablet, and desktop screens using CSS Flexbox and Grid.

Designed a modern landing page focusing on UI/UX principles.
